

# HOW TO COCKTAIL

Welcome to our simple how to guide on making cocktails at home. Although we love a simple G&T or Vodka & Soda, we love enjoying proper cocktails from the comfort of home surrounded by friends and family.

We've created this guide with the hope it will inspire you to experiment with Gin and Vodka.

Happy sippin!

# TIPS & TRICKS

A few key pointers from us to make your drinks taste their best.

Use fresh ice. The old party ice that's been sitting at the bottom of your freezer will pick up all the smells around your freezer, and you'll taste it in your drink.

You don't need proper barware for a good drink. Don't have a shaker? Use a jar with a lid, whatever gets the job done. You can almost always substitute a common kitchen item.

Garnishes are key. Citrus fruits are seasonal, so we always make sure to have some dehydrated citrus on hand.
